2021-22 Phase Three: Comprehensive District Improvement Plan

Rationale

District improvement efforts are a collaborative process involving multiple stakeholders. During the improvement planning process, leaders focus on priority needs, district funding, and closing achievement gaps between identified subgroups of students. When implemented with fidelity, the Comprehensive District Improvement Plan (CDIP) cultivates an environment that promotes student growth and achievement.

While the focus of continuous improvement is student performance, the work must be guided by the aspects of teaching and learning that affect performance. An effective improvement process should address the contributing factors creating the learning environment (inputs) and the performance data (outcomes).

Using the Comprehensive District Improvement Plan Template

The template is a complement to the Needs Assessment for Districts. Using your determined priorities, you will set both short- and long-term targets and outline the activities intended to produce the desired changes.

- a. Develop your Strategic Goals using the [Comprehensive District Improvement Plan Template](#).
- b. Upload your completed Comprehensive District Improvement Plan in the attachment area below.

Summarize the plan of action developed through your goal setting process. Describe which objectives and strategies will be maintained and which will be added or modified to address current needs as outlined in your needs assessment diagnostic, especially those of any identified gap groups.

In the Proficiency Goal , targeting elementary reading and math will continue. Strategies for these areas have remained the same with some modifications in the actual activities for these two areas. In the Separate Academic Indicator Goal, science remains the main area of concern at all levels (elementary, middle, and high school). The Growth Goal has been completely changed to target reading and math using the district MAP data as a means of helping to monitor our progress in both reading and math. The Achievement Gap Goal has been modified to target students with disabilities in the area of reading for the middle school level. Additionally, working to increase the graduation rate at the high school level by targeting homeschool students is a priority and the strategies and activities that focus on this have been maintained in the Graduation Rate Goal. The Transition Readiness Goal has basically been maintained.

Operational Definitions

Goal: Long-term three- to five-year targets based on the six (6) required district goals: proficiency, separate academic indicator, achievement gap closure, graduation rate, growth, and transition readiness. Long-term targets should be informed by The Needs Assessment for Districts.

Objective: Short-term target to be attained by the end of the current academic year. There can be multiple objectives for each goal.

Strategy: An approach to systematically address the process, practice, or condition that the district will focus its efforts upon, as identified in the Needs Assessment for Districts, in order to reach its goals or objectives. There can be multiple strategies for each objective. The strategy can be based upon Kentucky's six (6) Key Core Work Processes listed below or another established improvement approach (i.e. *Six Sigma, Shipley, Baldrige, etc.*).

Key Core Work Processes: A series of processes identified by the Kentucky Department of Education that involve the majority of an organization's workforce and relate to its core competencies. These are the factors that determine an organization's success and help it prioritize areas for growth.

[KCWP 1: Design and Deploy Standards](#)

[KCWP 2: Design and Deliver Instruction](#)

[KCWP 3: Design and Deliver Assessment Literacy](#)

[KCWP 4: Review, Analyze and Apply Data](#)

[KCWP 5: Design, Align and Deliver Support](#)

[KCWP 6: Establishing Learning Culture and Environment](#)

Activity: Actionable steps used to deploy the chosen strategy. There can be multiple activities for each strategy.

Measure of Success: Criteria that shows the impact of the work. The **measures** may be quantitative or qualitative but are observable in some way.

Progress Monitoring: Process used to assess the implementation of the plan, the rate of improvement, and the effectiveness of the plan. Should include timelines and responsible individuals.

Funding: Local, state, or federal funds/grants used to support (or needed to support) the improvement initiative.

Requirements for Building an Improvement Plan

There are six (6) required district goals:

- Proficiency, separate academic indicator, achievement gap closure, graduation rate, growth, and transition readiness.
