The Bell County School District Mission Statement
The mission of the Bell County School District is to provide a quality education that enables each student to become a successful life-long learner, an effective problem solver, and a productive member of our diverse society.
Bell County School District Beliefs
◊ Provide challenging educational opportunities in a safe environment is the District’s top priority.
◊ The Board and the schools will make program decisions on the basis of student needs.
◊ School success results in future success.
◊ Schools are responsible for creating an environment in which learners can and do succeed.
◊ The District will not tolerate incompetent personnel performance.
◊ Students, families, educators, and the community share the responsibility for student success and for providing safe schools to facilitate academic achievement.
◊ Teachers/school officials should involve parents at the earliest stage when a student shows signs of serious behavior problems.

Dear Parents and Students,

Welcome to a new school year! It is our hope that this handbook will not only provide information about our “Code of Acceptable Behavior”, but will also serve as a means of informing you of all the exciting programs the Bell County School District and our collaborative community agencies provide to our students and families. We want the handbook to be useful to you and hope you will refer to it throughout the year. If you have ideas for other issues we should address in our handbook, please don’t hesitate to contact us with your input. This is your handbook.

Should any parent, student, teacher, administrator, or other person feel offended by a practice implemented by the policies and procedures outlined in this handbook, s/he may appeal in writing to the Bell County Board of Education which meets monthly.

After this handbook is distributed for the school year, changes to school board policy, including those affecting provisions of this handbook and code of conduct, may be necessary due to new or revised statutes and regulations and case law. We will keep the handbook current on the Bell County School District web site which can be accessed at: bell.k12.ky.us This handbook is not all inclusive of policies approved by the Bell County Board of Education. An official copy of the District’s policy and procedure manual is available for inspection at the Office of the Superintendent. In addition, all school board policies and procedures are accessible online by any parent, community member, administrator or employee who has access to the Internet. (The website address is: http://policy.ksba.org/B07/)

8. Introduction
Kentucky School Districts are mandated to have in place a District Code of Conduct to enable each student to have access to a safe, secure, and orderly school that is conducive to learning. This district-wide code shall be implemented by all Bell County Schools. Each school/council must select and implement appropriate discipline and classroom management techniques necessary to carry out this code and shall provide a list of the school’s rules and discipline procedures in the school’s handbook. This Code of Conduct establishes minimum behavior standards. Recognizing that each school, grade, or class may require special provisions, school councils, administrators, and teachers have full authority to make rules to enforce these standards in keeping with their area of responsibility.

The Superintendent/designee shall be responsible for overall implementation and supervision of the Board’s Code of Acceptable Behavior and Discipline, and each Principal shall be responsible for administration and implementation of the Code within each school. The Principal shall apply the Code uniformly and fairly to each student without partiality or discrimination. A complete updated copy of the policy manual is available for inspection at the Central Office. In addition, current district policy and procedure will be available on the school district web site.

9. Assurances regarding due process, suspension, and expulsion:

Discipline and Due Process – (Board Policy 9.431-9.434)
State and Federal guidelines are adhered to regarding discipline procedures. Records are kept regarding incidents which require disciplinary action of a more serious nature including student transfer, suspension and expulsion. Students will be afforded the right to due process whenever applicable. This means they will be given the opportunity to give their version of the incident when they are involved in any altercation.

Due Process-Suspension – (KRS 158.150)
A pupil shall not be suspended from the common schools until after at least the following due process procedures have been provided:
(a) The pupil has been given oral or written notice of the charge or charges against him which constitute cause for suspension;
(b) The pupil has been given an explanation of the evidence of the charge or charges if the pupil denies them; and
(c) The pupil has been given an opportunity to present his own version of the facts relating to the charge or charges.
These due process procedures shall precede any suspension from the common schools unless immediate suspension is essential to protect persons or property or to avoid disruption of the ongoing academic process. In such cases, the due process procedures outlined above shall follow the suspension as soon as practicable, but no later than three (3) school days after the suspension. The superintendent, principal, assistant principal, or head teacher of any school may suspend a pupil but shall report the action in writing immediately to the superintendent and to the parent, guardian, or other person having legal custody or control of the pupil.

Suspension of Exceptional Children as Defined in KRS 157.200 (KRS 158.150)
(a)...Shall be considered a change of educational placement if:
1. The child is removed for more than ten (10) consecutive days during a school year; or
2. The child is subjected to a series of removals that constitute a pattern because the removals accumulate to more than ten (10) school days during a school year and because of other factors, such as
the length of each removal, the total amount of time the child is removed, and the proximity of removals to one another.

(b) The admissions and release committee shall meet to review the placement and make a recommendation for continued placement or a change in placement and determine whether regular suspension or expulsion procedures apply. Additional evaluations shall be completed, if necessary.

(c) If the admissions and release committee determines that an exceptional child's behavior is related to his disability, the child shall not be suspended any further or expelled unless the current placement could result in injury to the child, other children, or the educational personnel, in which case an appropriate alternative placement shall be provided that will provide for the child's educational needs and will provide a safe learning and teaching environment for all. If the admissions and release committee determines that the behavior is not related to the disability, the local educational agency may pursue its regular suspension or expulsion procedure for the child, if the behavior so warrants. However educational services shall not be terminated during a period of expulsion and during a suspension after a student is suspended for more than a total of ten (10) days during a school year. A district may seek temporary injunctive relief through the courts if the parent and the other members of the admissions and release committee cannot agree upon a placement and the current placement will likely result in injury to the student or others.

Suspension of Primary School Students (KRS 158.150):
“Suspension of primary school students shall be considered only in exceptional cases where there are safety issues for the child or others.”

Make-Up Work For Periods of Suspension (Policy 09.123)
Student shall be allowed to make up assignment made before they were suspended. Assignments made during the suspension may be made up at the school’s discretion.

Expulsion and the Continuation of Educational Services (Policy 09.435)
Expulsion is the long-term removal of a student from school as a disciplinary measure and requires action by the Board of Education. Kentucky statute states, “A Board of Education that has expelled a student from the student’s regular school setting shall provide or assure that educational services are provided to the student in an appropriate alternative program or setting, unless the board has made a determination, on the record, supported by clear and convincing evidence, that the expelled student poses a threat to the safety of other students or school staff and cannot be placed into a state-funded agency program.” Behavior that may be determined to pose a threat shall include, but not be limited to, the physical assault, battery, or abuse of others; the threat of physical force; being under the influence of drugs or alcohol; the use, possession, sale, or transfer of drug or alcohol; the carrying, possessing, or transfer of weapons or dangerous instruments; and any other behavior that may endanger the safety of others.

Suspension and Expulsion as Related to the Continuation of Extracurricular School Activities (Policy 09.424 and Policy 09.435)
Students suspended or expelled from school shall not be permitted to participate in any extracurricular or school sponsored activities during the period of suspension or expulsion. Students who are expelled and are being served in an alternative program due to a drug violation shall not be permitted to participate in or attend any extracurricular or school-sponsored activity. Students being serviced in an alternative program (safe schools or in-school suspension) shall not be permitted to participate in or attend any extracurricular or school-sponsored activity during the dates of the assignment or term of suspension. Suspensions cannot exceed 10 school days for a single incident.
Grievance Procedure (Policy 09.4281)
The Superintendent shall develop specific grievance procedures to include, but not be limited to, the opportunity for high school student grievances to be addressed and resolved at each level from the point of origin, time limitations for the filing an appeal of a grievance is defined in the policy 09.4281 and procedures 09.4281 AP.1.

10. Where and When the Code will Apply:
Students are expected to obey the Student Discipline Code from the time they leave home in the morning until they return home in the afternoon. Adherence to the Student Discipline Code is required during all school related functions, ball games, field trips, dances conducted at the school, at an away athletic event or any site hosting an event in which one of our schools is a participant, and is also required on school district-provided transportation to and from school and to any of the afore mentioned events.

Items which may be used to disrupt or interfere with the educational process may be removed from the pupil’s possession by a staff member. Such items may be returned to the pupil’s parents by the staff member or through the Principal’s office.

All other pupils shall be classified as nonresidents for school purposes. Nonresident pupils may be admitted to the District's schools in accordance with Board policy and upon approval of the Superintendent.

Tuition for Out of State Students
The tuition for out-of-state students attending the Bell County School District in grades K-12 shall be **($1,000.00) per year.** All tuition payments shall be made through Chris Warren, Director of Pupil Personnel Office at the Board of Education, 211 Virginia Avenue, PO Box 340, Pineville, Ky. 40977.

School Service Area (Policy 09.11)
Service areas have been established based upon the size of the facility for each of our six preschool through eighth grade school centers. In order to prevent overcrowding, parents must obtain written permission from the Superintendent utilizing the district “Transfer Request Form” (School board procedure 09.11 AP.2) to send a child to a school other than the school designated to serve the family based upon their residence. Lone Jack School Center has been designated as the receiving school for students in grades Primary-8 residing in the Pineville Independent School’s service area who wish to attend a Bell County School and Yellow Creek School Center is the receiving school for students in grades Preschool-8 residing in the Middlesboro Independent School’s service area who wish to attend a Bell County School.

Incoming Transfer Students
A student transfer may be placed temporarily (ten days maximum placement) without records. Within a ten (10) day period after initial enrollment, a valid birth certificate, Kentucky immunization certificate, a completed school physical form, and a complete copy of school records must be on file. Extensions may be granted by the principal if an extenuating circumstance arises (i.e. ward of the court).

Entrance Requirements (Procedure 09.121 AP.1)
- **Proof of Age and Identity** - A birth certificate or other reliable proof of the student's identity and age. If a birth certificate is not presented, an affidavit of the inability to produce a copy of the birth certificate must be given.

- **Proof of Immunization** - Evidence of immunization by means of a doctor's certificate or a certificate from the Public Health Service. The immunization certificate form required by 704 KAR 4:020 shall be on file within two (2) weeks of a student's enrollment in school.

- **Preventative Health Care and Vision Examinations** - Within one (1) year prior to initial admission to school, each student entering kindergarten shall undergo a preventative health care examination, which shall be documented on the state-required form. A preventative health care examination may also be required for students entering pre-school.

Also upon enrollment, each student entering the first year of public school, public pre-school or Head Start must undergo a vision examination as required by applicable statute and regulation and provide the school with the required form by January 1 of the first year of enrollment. Evidence of a dental screening or
examination shall be required to be submitted by January 1 of the first year that a five- and six-year-old student is enrolled in the District.

Principals are to report to the Director of Pupil Personnel the names of those children who do not present acceptable evidence of age and required immunizations and examinations. Except for vision examination forms, which are due by January 1 of the first year of enrollment, failure to provide the remaining required documentation within thirty (30) calendar days after enrollment may constitute reason for legal action.

**Primary/Entrance Age** (Policy 09.121)

A child who becomes five (5) on or before August 1 may enter the primary school and may advance through the primary program without regard to age in accordance with KRS 158.030. A child, who becomes six (6) by August 1, shall attend public schools unless s/he qualifies for an exemption as provided by law. The District shall establish guidelines to determine a student’s level of academic and social skills when that student is being considered for advancement through the primary program. A student, who is at least five (5) years of age, but less than six (6) years of age on or before August 1, may be enrolled in the second level of the primary program in keeping with the process set out in Kentucky Administrative Regulation. Parents/guardians may petition the Board to allow their child to enter school earlier than permitted under statutory age requirements. On receipt of a petition, the District shall conduct an evaluation process to help determine a student’s readiness to engage in and benefit from early entry to school. (Procedure 09.121 AP.21)

For the **2017-2018** school year, the following provisions apply:

- **A child who becomes five (5) by August 1 may enter primary school** and may advance through the primary program without regard to age in accordance with KRS 158.031.
- **A child who is six (6) years of age, or who may become six (6) years of age by August 1,** shall attend public school or qualify for an exemption as provided by KRS 159.030.

**PRESCHOOL PROGRAM**

The Bell County School District collaborates with the Bell Whitley Head Start agency to provide a jointly operated preschool program offering a developmentally appropriate curriculum. **The district is required by Kentucky law to offer preschool to school district residents who are age four (4) on August 1 and whose family income is no more than 160% of poverty or who have a disability under the Individuals with Disabilities Education Act (IDEA).** The preschool program is available to Bell County School District residents who have disabilities under the IDEA upon their third birthday. The Bell County Board of Education exceeds the minimum service requirements by offering the preschool program to children who do not meet eligibility guidelines, as space is available. If space is available the district may serve three and four year old from other districts contingent upon signed inter-district reciprocal agreements. At the present time, unlike many Kentucky districts, the Bell County Board of Education does not charge tuition for preschool students who do not meet income or disability guidelines.

Parents of preschool children wishing to attend a district preschool outside their resident area (ex: a child living in the Page School Center attendance area wishing to attend Bell Central School Center or a child living in the Middlesboro in district wishing to attend Yellow Creek School Center) must have written authorization from the Bell County School District Superintendent. This authorization shall not be provided any earlier than one calendar week before the first day of attendance for students in the Bell County School District in order to provide first priority to students who live in the school’s attendance area.
Bell County preschool students attendance requirements are communicated to parents/guardians upon entry into the preschool program. Each bus transporting a preschool child shall have a trained bus monitor aboard. Please refer questions about the preschool program to Dr. Mitch Bailey, Bell County School District Preschool Coordinator at 337-7051 or the Bell Whitley Head Start Program at 337-3044.

ATTENDANCE AND TRUANCY

Attendance Philosophy
The Bell County School District administration and faculty places the upmost importance upon regular student attendance, *beginning with the preschool program* and extending through the student’s graduation from high school. Each time a student misses school, he/she loses knowledge that can never again be fully obtained by any other means. Kentucky law (KRS 159.990) states that attendance in a public school is compulsory for students between the ages of six (6) and sixteen (17) unless he/she has graduated from high school, is enrolled in regular attendance in a private, parochial, or church regular day school or has a physical or mental condition which prevents or renders inadvisable attendance of school or application to study. Students participating in a school or state approved field trip shall be considered present.

Truancy (KRS 159.150):
Pupils are required to report to the school which they attend *regularly and punctually*. Any student who has attained the age of six (6), but has not reached his/her eighteenth (18th) birthday, who has been absent from school without valid excuse for three (3) days or more, or tardy without valid excuse on three (3) days or more, is a truant. Any student enrolled in a public school who has attained the age of eighteen (18) years, but has not reached his/her twenty-first (21st) birthday, who has been absent from school without valid excuse for three (3) or more days, or tardy without valid excuse three (3) or more days is a truant. Any student who has been reported as a truant two (2) or more times is a habitual truant. For the purpose of establishing a student’s status as a truant, a student’s attendance record is cumulative for an entire school year. When students transfer from one Kentucky district to another, attendance information from the previous district shall become part of their official attendance record for that school year. Truants shall be reported to the Director of Pupil Personnel who will take appropriate actions which shall include referral to the judicial system.

Excused Absences
Absence or tardiness shall be excused for the following reasons:
1. Death or severe illness in the pupil’s immediate family,
2. Illness of the pupil (verification by a health professional may be required),
3. Religious holidays and practices,
4. Clinical appointments such as, but not limited to, appointments with doctors or dentists (verification by a health professional may be required),
5. One (1) day for attendance at the Kentucky State Fair,
6. Documented military leave,
7. One (1) day prior to departure of parent/guardian called to active military duty,
8. One (1) day upon the return of parent/guardian from active military duty,
9. Visitation for up to ten (10) days with the student’s parent, de facto custodian, or person with legal custody who, while on active military duty stationed outside of the country, is granted rest and recuperation leave,
10. Ten (10) days for students attending basic training required by a branch of the United States Armed Forces, or
11. Other valid reasons as determined by the Principal/designee, including trips qualifying as educational enhancement opportunities. Refer to Policy 09.123 for conditions.

Hand Written Notes
A student can use a **maximum of five (5) hand written notes**, for a total of five (5) day during a school year. The hand written notes need to identify the date(s) and reason the student was absent and be signed by the guardian. Hand notes and Dr. Excuses **must be turned in within three (3) days after returning to school**. All
days missed will be deemed unexcused if student does not turn in an approved excuse within three (3) days of returning to school, even if they have a doctor's excuse.

**Verification of Absence** (Policy 09.123):
Upon returning to school from an absence, a student must present to the Principal/designee a written statement from his/her parent/guardian including the date of and reason for the absence. Absences that are not properly verified shall be considered unexcused.

**Other Important Attendance Notes:**
- In addition, 702 KAR 7:125 states that students who participate in an off-site high school class or block may be counted in attendance.

- Students participating as a part of a school sponsored interscholastic athletic team who compete in a regional or state tournament sanctioned by the Kentucky Board of Education or KHSAA that occurs on a regularly scheduled school day shall be counted and recorded present at school on the date or dates of the completion, for a maximum of two (2) days per student per school year. Students shall be expected to complete any assignments missed on the date or dates of the competition.

**Home-Hospital Instruction (“Homebound”)**
The Bell County Board of Education operates a program for home instruction and/or hospital instruction for students of school age. Home/hospital instruction provides educational services to students who cannot attend school for extended periods due to temporary or recurring conditions, including fractures, surgical recuperation, or other physical, health, or mental conditions. An “extended period” refers to an absence for more than five (5) consecutive school days.

Home/hospital instruction will be a minimum of two (2) visits per week with one (1) hour of instruction per visit, which is equivalent to one (1) child’s attendance in school for five (5) days. Students on extended placement in home/hospital instruction may receive virtual/online instruction, which would be in addition to the minimum two (2) one (1)-hour visits per week. A parent or responsible adult must be present in the home/hospital room during the time the home/hospital teacher is present.

Determination of a student’s eligibility and provision of services for home/hospital instruction shall be made in compliance with applicable statutes and regulations. In accordance with KRS 159.030(2), the Board shall require evidence for students exempted from school attendance more than six (6) months. An exemption shall be reviewed annually.

At any time based on changes in the student’s condition, the home/hospital review committee may schedule a review of the student’s continued eligibility for home/hospital instruction.

The Admissions and Release Committee (ARC) shall determine homebound placement for a student with disabilities. The 504 Team for a student may facilitate submission of an application to the review committee.

Home instruction shall not be used as a substitute for a more appropriate educational placement for a student. To apply for home/hospital instruction, contact either the school where your child is enrolled or the Director of Pupil Personnel at the Bell County Board of Education and request an application. School officials will describe the procedure utilized in determining home/hospital eligibility based on the Board policy 08.1312.

1. They shall be deemed academically deficient if they have not received passing grades in at least four (4) courses, or the equivalent of four (4) courses, taken in the preceding semester.

2. They shall be deemed deficient in attendance when they accumulate nine (9) unexcused absences for the preceding semester. Suspensions shall be considered unexcused absence.

The purpose of the Board’s Alternative Education Program is to provide:

- Learning activities that support innovative pathways and are aligned to college and career outcomes for all students.
- A curriculum that is aligned with the Kentucky Core Academic Standards and the learning goals in each student’s Individual Learning Plan (ILP).
- Successful student transition to the regular school assignment, when possible, or to post-secondary status.
- A meaningful alternative to suspension and/or expulsion of a student.

Alternative education placements may be utilized for grade levels 6 – 12. Placement may be voluntary or involuntary, and the program may be offered either on-site or off-site. Refer to policy/procedure 09.4341/09.4341AP.21 for placement criteria.

**TRANSPORTATION**

Pupils shall be eligible to be transported to and from school if they reside more than one mile, by the nearest traveled road or street, from the school to which they are assigned. If traffic or other safety conditions make walking to school extremely dangerous, pupils shall be eligible for transportation without regard to the distance to their school.

Students are required to walk to certain centralized bus stops on public roads where traffic hazards would not make it feasible to stop buses in front of their homes. Students who live close together shall be required to assemble themselves at a certain point to be picked up by the bus.
Persons Not Eligible to Ride District Transportation
Persons not of school age, employees of the Board, parents of students, and persons not associated with the schools shall not be permitted to ride school buses during the scheduled transporting of students without written authorization of the Superintendent or designee.

Additionally, if sexual discrimination or harassment is being alleged, reports are to be made directly to the Superintendent. Complaints of harassment/discrimination, whether verbal or written, shall lead to a documented investigation and a written report. Without a report being made to the Principal or Superintendent, the District shall not be deemed to have received a complaint of harassment/discrimination.

Employees who believe prohibited behavior is occurring or has occurred shall notify the victim’s Principal, who shall immediately forward the information to the Superintendent.

Procedure for Reporting Sexual Harassment
When sexual harassment is alleged, the District’s Superintendent shall be notified at the Bell County Board of Education, 211 Virginia Avenue, Pineville, Kentucky 40977; Phone: 337-7051.
Confidentiality
District employees involved in the investigation of complaints shall respect, as much as possible, the privacy and anonymity of both victims and persons accused of violations.

Retaliation Prohibited
No one shall retaliate against an employee or student because s/he submits a grievance, assists or participates in an investigation, proceeding, or hearing regarding the charge of harassment/discrimination of an individual or because s/he has opposed language or conduct that violates this policy.

Appeal
Upon the completion of the investigation and correction of the conditions leading to the harassment/discrimination, any party may appeal any part of the findings and corrective actions to the Superintendent.
If a supervisor is an alleged party in the harassment/discrimination complaint, procedures shall also provide for addressing the complaint to a higher level of authority.
Failure by employees to initiate an investigation of alleged harassment/discrimination, to follow approved procedures, or to take corrective action shall be cause for disciplinary action.

PREGNANT AND MARRIED STUDENTS
Married and/or pregnant pupils shall be permitted the same rights and privileges as other pupils. Pregnant students may not participate in activities that will endanger the student or fetus.

STUDENT ACCIDENT INSURANCE COVERAGE
The Bell County Board of Education provides Blanket Accident Coverage for all students in the school system. The payment of medical bills incurred within two years from the date of accident is made ONLY IN EXCESS over any other family or employer group insurance or plan that MUST CONTRIBUTE ITS MAXIMUM FIRST before this coverage has any liability. This is a program of supplemental coverage designed to pick up balances left by the family or employer group insurance or plan and, if no other coverage is available, to honor the usual and customary medical expenses to the limits stated in the policy provisions. This insurance program will also reimburse a parent for any co-payment charge they may have from using their own insurance when a receipt is furnished to the Student Insurance Coordinator.

Forms must be completed and submitted to the Bell County Board of Education’s Student Insurance Coordinator along with copies of all itemized medical bills incurred and copies of the primary insurance Explanation of Benefits (EOB) for prompt processing of claims. If you have any questions or need to obtain assistance in submitting a claim, contact the Student Insurance Coordinator at 337-7051, Ext. 136.

SCHOOL PICTURES
All Bell County Schools will provide an opportunity for each student to have a setting for school pictures. Students will deal directly with the company. The company will provide each student a proof to examine and package to select in a range of prices.

HOMEWORK/STUDY TIME EXPECTATIONS
The individual school handbook shall contain the individual school's homework policy and study time expectations.
**PATRIOTISM/PLEDGE OF ALLEGIANCE**

Each student shall be afforded the opportunity to begin each school day with the Pledge of Allegiance to the Flag of the United States. No student shall be required to participate in the Pledge, against the student’s or the parents’ wishes.

**PROMOTION AND RETENTION ISSUES**

Each school shall determine criteria for student progress through the school’s program. The criteria, which is stated in each schools’ handbook supplement, shall reflect mastery of state-required capacities and be aligned with the Kentucky Performance Rating for Educational Progress (K-PREP).

A student may advance through the primary program without regard to age if the District determines that s/he has acquired the academic and social skills taught in kindergarten and that advancement would be in his/her best educational interest. Successful completion of the primary program, as determined by methods set out in Kentucky Administrative Regulations, shall be a prerequisite for a child's entrance into the fourth grade. No student may be retained without prior consultation with the parents and approval of the Principal.

**Transfers**

Any promotions or credits earned in attendance in any approved public school are valid in any other public school. In case a pupil transfers from the school of one district to the school of another district, s/he may not be assigned to a lower grade or course until the pupil has demonstrated that s/he is not suited for the work in the grade or course to which s/he has been promoted. Pupils who transfer from a non-accredited school may be required to take tests from the previous grade to determine grade placement or course credit.

**The Primary Program**

*Continuous progress:* Students progress through the primary school program at their own rate without comparison to the rate of others or consideration of the number of years in school. Council or school policy shall determine assignment of primary school students to classes and programs within the school. Promotion from the primary program shall be in compliance with applicable administrative regulations and shall be based on established exit criteria. A school team, which includes the parent of an identified child, will consider and recommend the appropriate early or delayed exit for any student in the primary program. Such review will take place at least thirty (30) days before such decision takes effect.

NOTE: Per 704 KAR 3:440, retention and promotion within the primary school program are not compatible with continuous progress.

**NOTIFICATION OF FERPA RIGHTS**

The Bell County School District observes strict federal and state regulations for safeguarding the confidentiality of student educational records. The district person responsible for confidentiality is the Director of Pupil Personnel.

The Family Educational Rights and Privacy Act (FERPA) affords parents and “eligible students” (students 18 years of age or older or students who are attending a postsecondary institution) certain rights with respect to the student’s education records. They are:

1. **The right to inspect and review the student’s education records within forty-five (45) days of the day the District receives a request for access.**

   Parents or eligible students should submit to the school Principal/designee a written request that identifies the record(s) they wish to inspect. The Principal will make arrangements for access and notify the parent or eligible student of the time and place where the record(s) may be inspected.

2. **The right to inspect and review logs documenting disclosures of the student’s education records.**
Except for disclosure to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosure to the parent or eligible student, FERPA regulations require the District to record the disclosure.

3. **The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate, misleading, or in violation of the student’s privacy or other rights.**

Parents or eligible students may ask the District to amend a record that they believe is inaccurate, misleading, or in violation of privacy or other rights. They should write the school Principal, clearly identify the part of the record they want changed, and specify why it is inaccurate, misleading, or in violation of their privacy or other rights.

If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise him/her of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

4. **The right to provide written consent prior to disclosure of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.**

Exceptions that permit disclosure without consent include:

a. Disclosure to school officials with legitimate educational interests. A “school official” is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school Board; a volunteer, or an outside person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility to the District.

This may include contractors, consultants, volunteers, and other parties to whom the District has outsourced services or functions.

b. Upon request, disclosure of education records without parent/eligible student notice or consent to officials of another school district or post-secondary institution in which a student seeks or intends to enroll or is already enrolled or to other entities authorized by law so long as the disclosure is for purposes related to the student’s enrollment or transfer.

c. Disclosure of information to those whose knowledge of such information is necessary to respond to an actual, impending, or imminent articulable and significant health/safety threat.

d. Disclosure to state and local educational authorities and accrediting organizations, subject to requirements of FERPA regulations.

Designated Kentucky State agencies may be permitted access to student record information, which will depend on the authority granted to their particular agency.

5. **The right to notify the District in writing to withhold information the Board has designated as directory information as listed in the annual directory information notice the District provides to parents/eligible students.**

To exercise this right, parents/eligible students shall notify the District by the deadline designated by the District.
6. The right to prohibit the disclosure of personally identifiable information concerning the student to recruiting representatives of the U.S. Armed Forces and its service academies, the Kentucky Air National Guard, the Kentucky Army National Guard and institutions of higher education.

Unless the parent or student who has reached age 18 requests in writing that the District not release information, the student’s name, address, and telephone number (if listed) shall be released to Armed Forces recruiters and institutions of higher education upon their request.

7. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-4605

In addition cameras will also be used in some hallways in Bell County schools. Only school personnel shall have access to tapes for review of student conduct and behavior unless the parents have signed a release form or unless other students can be obscured if the tape is shown to persons other than school personnel, due to confidentiality concerns.

SCHOOL-BASED DECISION MAKING (SBDM)

All Bell County district schools operate under the guidance of a School-Based Decision Making Council. Such councils are designed by law to give parents, teachers, and Principals substantial control over how the school operates. The SBDM Council consists of the Principal (chairperson), two parents and three teachers elected by their peers. The council establishes policies on such issues as curriculum, instructional practices, schedules for the school’s staff, uses of school space, discipline, classroom management, extra-curricular programs, materials, support services, and staffing. Council meeting times are stated in the individual student handbook supplements. All council meetings are open to the public and parents are urged to attend.

INSTRUCTIONAL RESOURCES

Textbooks and/or instructional materials shall be made available to all students. Students or parents shall compensate the District for instructional resources that are lost, damaged, or destroyed while in the student’s possession. KEES is administered by the Kentucky Higher Education Assistance Authority (KHEAA). Students who try to get the most from high school by studying hard and making good grades (2.5 GPA or higher) can earn scholarships for college or technical school. The better students do in high school, the more they will earn toward college scholarships. You do not have to apply for a KEES award. It is sent automatically to the college you’re attending after the school lets KHEAA know that the student is attending classes.

To learn more about KEES, ask the BCHS Guidance Counselors or visit: [http://www.kheaa.com/keeshome.html](http://www.kheaa.com/keeshome.html)

Parents, grandparents, or other account-holders can pre-pay tuition in one lump sum or in manageable monthly payments over many years until the student begins school. Once an account is paid in full, KAPT guarantees payment of full tuition and mandatory fees at any public college or university in Kentucky.

### CERTIFICATION OF RECEIPT

My signature(s) noted on the previous page of the *Bell County Receipt of Agreement Form* indicates that I as a parent/guardian of a student enrolled in a Bell County District School have received a copy of the Bell County School District Code of Conduct and Parent and Student Handbook and have communicated with my child, in an age appropriate manner, to help him/her understand the rights and responsibilities he/she has as a student.

### CORPORAL PUNISHMENT

Dear Parents,

You must realize that if you deny the school the use of corporal punishment, that school district staff may substitute other appropriate punishment in lieu of corporal punishment. Any denial granted by the parent will remain in effect unless the parent notifies school officials in writing otherwise. Refer to the district handbook section on “Corporal Punishment” for detailed information.

*Corporal punishment is never to be used with Bell County School District preschool age children.*

### Publication Consent Form

Dear Parent/Guardian:

### School-Related Student Trip Permission Slip and Medical Release Form

This permission form grants participation in all school-related student trip(s) during the current school year. If you wish to only grant permission selectively for specific trips, do not check “Yes” on the Receipt and Agreement Forms checklist. You will be given the opportunity to grant selective permission as each school-related trip is scheduled.

In the event of accident or sudden illness while on the school-related student trip, I authorize school personnel to contact the physician(s) listed on my child’s school enrollment data forms and authorize those physician(s) to render such treatment as may be deemed necessary in an emergency, for the health of said child. In the event physician(s), parent(s), or other persons designated by the parent cannot be contacted, school personnel are hereby authorized to take whatever action is deemed necessary in their judgment, for the health of said child.
**Integrated Pest Management Notification**

Written notice in the following form shall be sent or given at the beginning of the school year. A copy of the notification shall be maintained by the school authority for twenty four (24) months after the notice is issued and shall be subject to inspection upon request by Kentucky Department of Agriculture personnel.

Dear Parent or Guardian:

Each school district in the Commonwealth is required to implement a program of "integrated pest management" with the primary goal of preventing and controlling pests through strategies that may include judicious use of pesticides. The application of pesticides in the school or on school grounds during times when children are present is limited by state regulation, but there may be occasions when, after consulting with a certified pesticide applicator, the school administration determines that a pesticide application is necessary when children are present in the school. As required by state regulation, we have created a registry for parents or guardians who wish to receive an electronic message or telephone call prior to the application of pesticides in the school when children are present. Please provide the school administration your email address or phone number if you wish to be placed on this registry.

CURRICULUM AND INSTRUCTION

Individual Learning Plan Web Release

I am the parent or guardian of ____________________________________, a student under the age of eighteen (18) who is enrolled in grades six through twelve (6-12) in the _________________________ school district. I hereby authorize the District to enable a feature of web based Individual Learning Plan (“ILP”) software, which will permit my student to invite third parties to have access to his/her ILP information or portions of such information via the web (internet). The purpose of this feature is to help my student with career and college plans by permitting him/her to share ILP information with persons or organizations such as college admissions officers, organizations offering scholarships, and potential employers. However, I understand this feature could permit my student to release ILP information to other third parties. I agree that the District, its employees, and agents shall not be responsible, nor shall they incur any liability for any disclosure made by the student using this software feature. The Family Educational Rights and Privacy Act (FERPA) and similar state statutes (KFERPA) generally require parents to consent before the educational records relating to their student(s) are disclosed to third parties.

I understand that the above software feature is not itself a disclosure of education records, but it will enable my student to disclose confidential educational records information. I specifically authorize and give my consent to the disclosure of ILP educational records information to third parties by my student through the use of the software feature as described above.

I understand that once this signed form is returned to the school, it will stay in effect as long as my child is enrolled in the District (unless I or my child on turning 18 requests a change).

I also understand that the sharing feature will not be enabled for my child unless this completed form is returned to the school.

Principals shall immediately report to law enforcement officials when an act has occurred on school property or at a school-sponsored function that involves student possession of a controlled substance on school property in violation of the law.

**DRUG-TESTING PROGRAM PURPOSE**

In this day and time alcohol and other forms of drug abuse have grown to major proportions in our society. School settings are not exempt from this phenomenon. Therefore, it is critical that educators and parents continually look for ways to institute programs that encourage a drug-free lifestyle for their students/children. It is to that end that this program is created to provide the appropriate action plan to address and foster a drug-free environment for grades 7-12.

The program consists of two components:

1. Education and Prevention Plan
2. Drug-Testing Policy
EDUCATION AND PREVENTION PLAN

Educational Seminars. Each semester at least one (1) educational seminar on alcohol and drug abuse shall be conducted by qualified substance abuse educators. These seminars shall be accessible to all students in grades seven through twelve (7-12) but shall be required for all athletic and extracurricular team members and for students who will be driving or parking on school property. Each seminar participant shall be administered an assessment over the content of the seminar upon completion.

Training in Drug Awareness. Teachers of grades seven through twelve (7-12) will be given an opportunity to receive training in drug awareness. Part of the training will enable each teacher to incorporate drug awareness information into his/her current curriculum. A keener teacher awareness of drug abuse signs and symptoms, as well as methods of referral, will be a direct result of the training. Instructional units on drug abuse, such as those currently taught in our health courses, will be enhanced by this teacher education component.

Seminars for Parents/Guardians. Educational seminars for parents/guardians that will address alcohol and other forms of drug abuse will be established in conjunction with other school programming. The central purpose of these sessions will be to provide parents/guardians with necessary information to parent toward drug prevention.

ALCOHOL AND DRUG SAFETY POLICY

All student athletes/extracurricular participant/drivers and their parents/guardians must read this policy and accompanying procedures and must acknowledge, in writing, that they have read the policy and procedures, understand the policy and procedures, and agree to be bound by the terms and conditions contained in the policy and procedures.

Statement of Need. All athletic and extracurricular team coaches/sponsors and the administration of grades seven through twelve (7-12) recognize that the unlawful use of alcohol and other drugs seriously impairs the health, safety, education, and future success of students in grades seven through twelve (7-12) engaged in that use. It is also recognized that the unlawful use of alcohol and other drugs is a potential problem for seventh through twelfth (7-12) grade students.

Athletic teams and extracurricular activities covered by this policy shall apply to all seventh through twelfth (7-12) grade students participating in varsity and sub varsity athletic and extracurricular activities. The subsequent addition of any extracurricular activity or sub varsity or sub varsity sport shall immediately be subject to this policy.

Statement of Purpose. This policy is intended to support the comprehensive educational policies and programs of the District in educating students and their parents/guardians as to the dangers inherent in the unlawful use of drugs. The policy is further intended to provide encouragement to seventh through twelfth (7-12) grade students who voluntarily choose to participate on athletic teams, in extracurricular activities, and/or to drive or park on school property to avoid such use and to strive to benefit from effective rehabilitation when such use has occurred.

Administrators shall not use information obtained in the course of administering this policy for disciplinary purposes other than those set forth herein. This policy is not designed to be used, nor shall it voluntarily be used in any manner, to provide a source of information for law-enforcement agencies or for the prosecution of the student or to limit the student’s participation in the school activities, other than the limitations imposed by this policy. Without a specific written authorization from the tested student or parent/guardian, if the student is under eighteen (18) years of age, the administrator shall not release any student’s test results to any person other than those described within this policy or as required by law or a lawfully issued subpoena or court order.

In order to accomplish its purposes, this policy establishes a program for procedures to deter the unlawful use of drugs and alcohol and to provide for suspension and termination of participation on the teams when deterrence is unsuccessful. To determine compliance with the policy, it provides a testing program to identify student participants who are unlawfully using drugs. For these students this policy provides incentives for rehabilitation through possible reinstatement to the specific athletic team or extracurricular activity involved. Consistent with its purposes, this policy also seeks to achieve the following objectives:

1. To protect District students from impairing their health, safety, education, and future success through the unlawful use of alcohol and other drugs;
2. To protect District students and their opponents from potential injury during competition resulting from the unlawful use of alcohol and other drugs;
3. To protect District students from the potential stigma of unsubstantiated allegations of unlawful use of alcohol and other drugs; and
4. To assure students, parents, teachers, and the community that the health, safety, education, and future success of student participants are the primary concerns of the District.

65
Implementation, Review, and Evaluation. All student participants and their parents/guardians must sign the “Student and Parent/Guardian Consent to Perform Urinalysis for Drug Testing” form before the student shall be permitted to try out for any athletic team, become a member of an extracurricular activity at the seventh through twelfth (7-12) grade level, or be authorized to drive or park on school property. A Substance Abuse Prevention Committee (Committee) shall be established and shall establish procedures as needed to implement the policy fairly and efficiently. The Committee may consist of the school Principals, Head Coaches of the athletic teams, designated sponsors of extracurricular activities, Athletic Director, Title IV Coordinator, School Health Coordinator, Counselor, Superintendent, and Board Members.

In addition, the Committee shall review and evaluate the effectiveness of the drug-testing policy on an annual basis. The evaluation shall include, but not be limited to, the effectiveness of the comprehensive educational and counseling program, substance testing program, procedural safeguards, and the list of drug substances tested. The Committee shall not have access to any of the test results. The Committee’s purpose is limited to procedures and evaluation of this policy.

Applicability. This policy applies to all students choosing to participate in any extracurricular activity, including students/players at the varsity and sub varsity levels and to students who drive or park on school property.

Education. At least once each semester, all coaches/sponsors and appropriate certified staff shall require attendance at educational seminars on drug abuse for all student participants (as outlined in the Education and Prevention Plan section of this policy). These seminars shall be open to attendance by student participants and their parents/guardians and shall be presented by qualified substance abuse educators. Those participating will be asked to demonstrate an understanding of the main components of the drug education seminar.

Testing Program. Testing shall be accomplished by the analysis of urine specimen obtained from the student participants. Collection and testing procedures shall be established, maintained, and administered to ensure:

1. Randomness of selection procedures;
2. Proper student identification;
3. Identification of each specimen with the appropriate student participant;
4. Maintenance of the unadulterated integrity of the specimen; and
5. Integrity of the collection and testing process, as well as the confidentiality of test results.

The specific testing process shall be on file at the testing laboratory approved by the Board.

Substances Tested. Student participants’ urine specimen shall be tested for the following, which include, but may not be limited to:

1. Amphetamines;
2. Marijuana (THC);
3. Cocaine and its derivatives;
4. Opiates;
5. Phencyclidine (PCP);
6. Benzodiazepine;
7. Propoxyphene; and
8. Other abused, illegal, or controlled substances as determined by the Committee.

Confidentiality

The Superintendent shall develop a process to reasonably ensure privacy during the taking of samples, security of samples once obtained, and designation of laboratory services that are accurate and reliable. Appropriate measures shall be taken to protect confidentiality throughout the testing process and in the handling of test results. Access to drug testing results shall be restricted on a need-to-know basis to those persons in positions designated by the Superintendent.

Student Drug-Testing Procedures

These procedures apply to all students choosing to participate in any extracurricular activity, including students/players at the varsity and sub varsity levels, and to students who drive or park on school property.

DRUG TESTING PROCEDURES

1. Prior to trying out for or joining an extracurricular team or activity, including athletics, or prior to being authorized to drive or park on school property, the student participant or driver and his/her parent/guardian must read Policy 09.423 and must ACKNOWLEDGE, IN WRITING, THAT THEY HAVE READ THE POLICY AND PROCEDURES, UNDERSTAND THE POLICY AND PROCEDURES, AND AGREE TO BE BOUND BY THE TERMS AND CONDITIONS CONTAINED IN THE POLICY AND PROCEDURES. The student participant or driver and his/her parent/guardian must also sign the “Student and Parent/Guardian Consent to Perform Urinalysis for Drug Testing” form before the student will be permitted to try out for any athletic team, join an extracurricular activity at the middle- or high-school levels, or be authorized to drive or park on school property.

2. Prior to giving a urine specimen, each student participant or driver shall complete both a “Medical History Form” (which shall include disclosure of all prescription drugs currently taken) and a “Consent to Test and Chain of Custody Form.” The forms shall identify the student participant or driver only by a confidential number and shall be placed in a sealed package, which shall be forwarded to the testing laboratory with the urine specimen.

3. Testing shall be done at the following times: All student participants shall be subject to random testing at any time between the student’s selection to or membership in the extracurricular team or activity and the date of the last game of the season for the athletic team or the date of the last extracurricular meeting or activity of the school year. Student drivers shall be subject to random testing at any time of the school year or for however long they choose to drive and park on school property.

4. The collection of urine specimen for the random testing shall be conducted on the school campus.

5. The testing laboratory approved by the Board shall determine which student participants or drivers are to be tested by the random drawing of names from all student participants and drivers.

6. Collection procedures for urine specimen shall be developed, maintained, and administered by the testing laboratory in an effort to minimize any intrusion or embarrassment for each student, to ensure the proper identification of students and the student’s specimen, to minimize the likelihood of the adulteration of a urine specimen, and to maintain complete confidentiality of test results. To that end, the procedure will require:
   a. The presence of a sponsor (coach or staff member) or the Principal/Assistant Principal immediately prior to the collection process to ensure proper student identification.
   b. The presence of one (1) or more representatives of the testing laboratory when the specimen is taken.
   c. The testing laboratory shall provide each student present for the collection process a receptacle for the collection of urine. The student shall be permitted absolute privacy during the collection process.
   d. Immediately prior to entering the private bathroom facility utilized for the collection process, the student shall be required to leave all personal belongings (including jackets, purses, book bags, pocket contents, etc.) in the custody of the school representatives present for student identification.
   e. Prior to entering the private bathroom facility utilized for the collection process, the testing laboratory shall treat water in the private bathroom facility with a coloring substance (frequently referred to by testing laboratories as “bluing the water”) to prevent a student from attempting to dilute or otherwise adulterate the urine specimen.

7. All scientific analyses of the collected specimen shall be conducted by the professional testing laboratory. Each specimen shall initially be tested by using a highly accurate immunoassay technique (EMIT). Initial positive results must be confirmed by gas chromatography/mass spectrometry (GC/MS). If the initial presumptive positive result is not confirmed by the GC/MS technique, the test shall be deemed to be negative. Only after the GC/MS confirmation shall a test result be reported as positive.

8. A portion of each urine specimen given by each student participant or driver shall be preserved by the testing laboratory for at least six (6) months.

9. Written confirmation of all test results shall be forwarded by the testing laboratory to the Drug Coordinator(DC)/Principal/Designee who shall provide the results (negative and positive) to the sponsor (coach, staff member, etc.), the student, and the parent/guardian of the student tested, if the student is under the age of 18. The testing laboratory shall not provide the test results verbally. All test results are confidential and shall be maintained in the Principal’s office under the strictest security. The laboratory shall re-test if there is a positive first test as described in Number 7 of this section. If these two (2) tests are in conflict, the results shall be deemed negative.

10. In the event that a student participant’s or driver’s urine specimen produces a positive result, the Principal and sponsor shall meet with the student participant or driver and the student’s parent/guardian, if the student is under the age of 18, to disclose and
discuss the test results. At this meeting the student shall be advised of his/her procedural rights. If a student has given consent and refuses to participate in drug screening, the refusal shall be treated as a violation and a first offense.

11. Any student participant or driver who has tested positive or the student’s parents/guardians, if the student is under the age of 18, may contest the test result by informing the Principal of their wish to have a hearing with the Principal within seventy-two (72) hours of receipt of notice of the positive test result. The student and parent/guardian shall be given the opportunity to present relevant evidence to defend the charge of violation of this policy prior to implementation of sanctions. The Principal may require written documentation (such as a doctor’s statement) of information that the student feels may have affected the test results. Failure to present written documentation to support the student’s defense of the case may result in the student being subject to the sanctions provided in this policy for a positive test result. Any further laboratory analysis shall be conducted with the student participant’s or driver’s remaining urine specimen preserved by the testing laboratory. Student’s parents/guardians, if the student is under the age of 18, may request another drug-test, at their own expense. A final decision of the Principal shall come within five (5) days of receiving notice to contest the test results.

12. The final determination of the student participant’s or driver’s eligibility shall be made at the school level by the Principal.

13. One (1) year after the student turns 18 years or older or one (1) year after the student’s graduation, whichever is later, all records in regard to this policy concerning each student participant or driver shall be destroyed, and at no time shall these results or records be placed in the student’s academic file or be voluntarily turned over to any law-enforcement agency, or used for any purpose other than those stated herein.

I hereby acknowledge that I have read Policy 09.423 (Use of Alcohol, Drugs, and Other Controlled Substances) and Procedure 09.423 AP.1 (Student Drug Testing Procedures), that I understand the policy and procedures, and that I agree to be bound by the terms and conditions contained in the policy and procedures.
